

octoScope Demonstrates Wireless Test Product; President Fanny Mlinarsky Participates in Panel and Tutorial on Latest Wireless Technologies at Wireless Innovation Forum

President Fanny Mlinarsky conducts LTE tutorial, participates in panel and T&M sessions

Demo features octoBox, the newest tool for MIMO OTA test

Nov. 29-Dec. 2, 2011, Hyatt Regency, Reagan National Airport, Washington, D.C.

Who/What

At the Wireless Innovation Forum Conference on Communications Technologies and Software Defined Radio ([SDR'11-WInnComm](#)), [octoScope](#) president Fanny Mlinarsky will present and participate in several sessions, as a panelist, tutorial presenter, and as a moderator of the two Test & Measurement sessions. In addition, octoScope will feature its newest wireless test product, [octoBox](#) in the event's Technology Demo Showcase.

[octoBox](#) revolutionizes the way multi-radio devices such as smartphones, sensors, robotic and military radios are designed, tested and verified. It offers accurate OTA testing of conventional and MIMO wireless devices in a customizable refrigerator-sized anechoic (non-echoing) enclosure that replaces more expensive walk-in anechoic chambers.

When/Where

octoBox Demo:

[MIMO/OTA \(Over the Air\) Controlled Environment Testing](#)

18:00-20:00, Wednesday, Nov. 30

Sessions featuring octoScope President, Fanny Mlinarsky

[Test & Measurement](#) track moderator

15:15 - 17:15, Tuesday, Nov. 29

9:50 - 11:50, Wednesday, Nov. 30

[LTE Network for Nationwide Broadband Public Safety Communications](#) tutorial presenter

13:50, Wednesday, Nov. 30

[The Future of White Space Communications](#) panelist

13:50, Thursday, Dec. 1

[Hyatt Regency Crystal City](#), Reagan National Airport, Washington D.C.
